

# Animated HALLOWEEN

## Safety Tips

### **COSTUME**

1. This Halloween, see and be seen! Some part of your costume should be bright and reflective!
2. Make sure you have shoes that fit to walk in - even if they don't match your costume!
3. Make sure you can see to the sides from your costume's EYES - sometimes facepainting is more fun!
4. Wear a watch you can see in the dark so you're home before you turn into a pumpkin - not that there's anything wrong with that!
5. Cut any long sheets or capes so they don't drag on the ground, or you may take an unwanted "trip"!

### **TRICK OR TREATING**

1. Never trick or treat alone
2. Don't trick or treat on an empty stomach – have a spooky dinner or a monster healthy snack first
3. Keep your Halloween treats til you get home, and go through them with your family or an adult
4. Before you go trick or treating, make a pirate map of your route - and give it to your parents!
5. When trick or treating, don't take shortcuts across woods, yards, or especially driveways!
6. Don't end up as a ghost - stay on the sidewalk and cross at the crosswalks!
7. Only trick or treat at houses with lights on or decorations
8. Not all cultures celebrate Halloween, so don't be mad – you might want to invite them to join in the fun!
9. In case of Halloween emergency, carry a cell phone or some quarters to use a pay phone.
10. It's also a good idea to carry a flashlight if you're in a dark neighborhood
11. Tricks are cool, but it's not a funny trick if you hurt someone - including their feelings!
12. Ewww! Don't eat unwrapped Halloween treats!
