

# MONEY

A NEW PLAY BY RICK MILLER

**MONEY** is an epic new Canadian play in 2 Acts, starring an ensemble of our country's top talents, including writer/director/performer Rick Miller.

Billionaire patriarch Max Weisz pits his two sons against each other, using wealth as a weapon. Three generations of the Weisz family reel from the fallout, as Max's AI creation runs for Prime Minister of Canada. **A futuristic melodrama about love, loss, trust and betrayal.**

MONEY tells the story of how money, power and technology are shaping human society. It aims to move the needle on one of the most important conversations of our time: how do we live together more equitably, peacefully, and sustainably? A big question that stirs up big emotions, which is why we need storytellers to get to the heart of it.

MONEY is currently in development towards a premiere in 2027.
